Forensic Assessment Interview

Director of the Academy for Scientific Investigative Training; Nate Gordon will be visiting South Africa and **presenting the 5-day FAINT seminar from 8 to 12 September 2025.**

The Forensic Assessment Interview is a semi-structured interview and question technique used to interview individuals during investigations or enquiries. This technique assists interviewers to collect information, detect potential deception to empower them with the correct information, to make the right decisions when it matters most.

The Academy's FAINT Seminar for Credibility Assessment includes the:

- Assessment of Non-Verbal Behaviour
- Projective Analysis of Unwitting Verbal Cues
- Forensic Statement Analysis
- Morgan Thematic Interview Technique
- Integrated Interrogation Technique
