

## COMPANY PROFILE

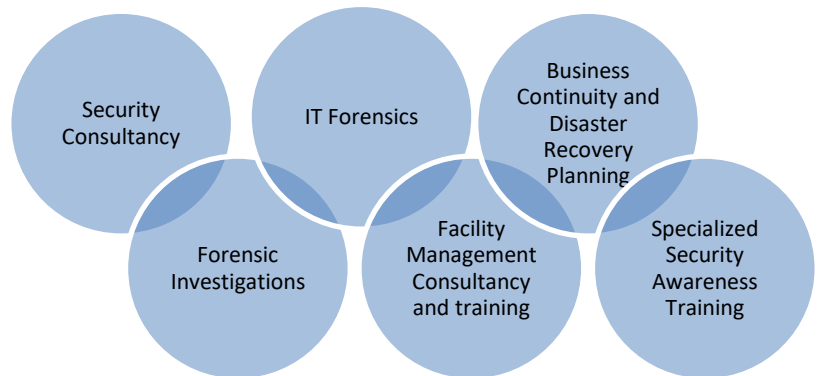

Our goal and passion is to assist organizations, regardless of the industry, size or location, in achieving and realizing leading and sustainable security and risk practises which are complementary to it's overall business startegies.

### Security Consultancy

Reviewing, assessing and designing existing and new security systems and plans and providing unbiased and independent solutions and where practical, reducing security expenditure, while focusing on security management, manpower, technical security components and security procedures.

### IT Forensics

Applying specialist skills, resources and experience to assist and support organizations to ensure that appropriate information & IT risk management structures are in place that are complimentary to its overall business and technology strategies.

### Forensic Investigative Services

Providing professional investigative services by experts in their respective fields. Our expertise includes both commercial and private investigations from small to large scale and also include IT forensic services. Apart from forensic investigations, through our business associates we are also experienced in insurance investigations and associated surveillance operations.

### Facilities Management Consultancy and Training

Consult with facility/operational managers on a range of concepts to optimize operational efficiencies and cost containment simultaneously, including the training of facilities and operational managers.

### Business Continuity and Disaster Recovery Planning

To assist organizations in developing and implementing disaster recovery plans and processes to ensure continuous stability of operations.

### Specialized Security Awareness Training

Providing tailor made training programs for your staff and executives with the primary focus being on general security awareness and safety, as well as a specialized program for executives focusing on 'Presence of Mind'.

URM believes in closely aligning ourselves with our clients, at both technical and managerial levels, to seamlessly support your team, and assist in reaching your objectives.

We are in the fortunate position of having previously gained significant experience within general and highly specialised security environments, which provides us with the opportunity to add value from the moment we are engaged.
